McSnorterton appears to be a purebred Pekingese - he was dumped so we have no paperwork on him. He was a dreadful mess so we did shave his body down. He gets along well with other dogs and is super friendly with people.

We do not know if McSnorterton is potty trained or not! he does not seem to be a barker and he loves to play fetch. I think he'd make an excellent family dog. We believe he is around 4yrs of age.

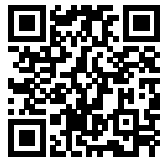

We just gave him a parvo/distemper booster shot but he still needs to be neutered! there is a \$50 rehoming fee for him.

Must be able to pick up in the west!
