I am selling my 4-seat DreamMaker X400 hot tub jacuzzi because I no longer use it. It is 4 years old but still works perfectly. The top has a few small blemishes on it, but it's still in great shape. A replacement top is \$75 but no need because this top is still cherry.

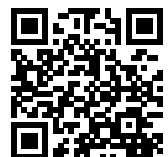

This tub was \$4000 when I purchased it 4 years ago from the hot tub store in Kahului. It costs maybe \$20 month to run. Holds 200-something gallons and has a color-changing light and waterfall.

It is currently unplugged and empty but I will gladly fill and plug it in to test when the right buyer comes along. Takes about 24 hours to heat up fully to 104 degrees. This particular model does not need a perfectly flat foundation and is fine on the ground.
