I know this is a long shot but me and my son are desperate. We are from mobile al. We got stranded here a week ago by one of my family members. My sons father is currently deployed in iraq and have no clue when he will be home. We have a place to stay just for this week but are in need. I don't have a job here as i am not from here no car to go find a job. I have no money for food, a place to stay when the week is up. I really need to get my son to a doctor and cant afford to do so. Im about to go insane. Anything will help clothes,food, money to pay for our room too pay for a bus to get myself and son so i can look for a job and get him to a doctor. I also need help with getting shampoo and toothbrushes. I know this is alot to ask for but we are desperate. I have never been in any situation like this.
