

TV onwall

Location **Kentucky**
<https://www.genclassifieds.com/x-567475-z>

LED, LCD, PLASMA & 3D TVs can be installed on any wall in any room of your home or business.

All wires can be concealed in-wall or in a wire cover system.

TVs can be installed over any fireplace, even wood burning fireplaces with UN-even creek stones can be mounted on with the proper tools & experience.

I have personally mounted over 8000 TVs since 2002. I install TV s & surround sound systems all day every day.

My prices can include the bracket for mounting the TV as well as the HDMI wires for connecting the TV to the cable box & DVD player at the proper length for on-wall TV installations.
