

Mathematics tutor with graduate degree and several years experience (Lower East Side)

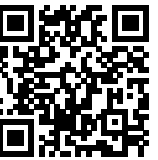

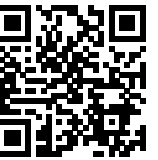

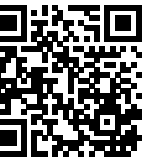

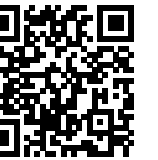

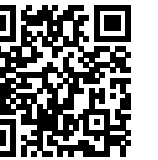

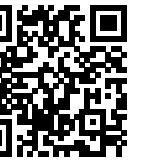

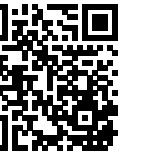

Location **New York**
<https://www.genclassifieds.com/x-568409-z>

I'm an expert mathematics tutor with an advanced degree from a top-tier university. I am completely credentialed and have expertise both inside and beyond the classroom. I specialize in working with middle and high school students, helping them to comprehend significant mathematical concepts and to overcome roadblocks that will probably hinder their success in future mathematics and science courses. During my tutoring sessions, I normally review assignments to make sure, first and foremost, it is completed. I then check assignments to isolate areas where the pupil is having problems. We work through those problems together until the student completely understands the topic. We then enjoy the week ahead so that the pupil knows forthcoming topics. Finally, we review and prepare for just about any upcoming quizzes and tests. It's a straightforward, tried-and-true process that ensures my students are able to gain self-confidence, foster test results, raise overall grades and garner a deep comprehension of math. In summary, it really works.

I tutor a complete range of math subjects, including calculus, pre-algebra, algebra I & II, trigonometry, geometry, statistics and common core.

I offer multi-session packages as low as \$40, and the first session is always free.

Please text, call or e mail.
