Seeking blues & rock guitar lessons near Sugarhouse/Liberty Park neighborhoods of Salt Lake City.

Ideal person has a few years of experience teaching blues and rock styles on guitar, and can come to my home, or meet near Sugarhouse/Liberty Park.

Seeking a tutor who is African-American, Latino, Native American, Asian, or melanated in some way.

Melanin is produced in the body by the pineal gland, otherwise known as the "third eye", and influences the way people hear and "feel" music, rhythm, and spirituality. I am not interested in learning music from anyone who doesn't have this inherent biological qualification.

I'm an adult student, not a brand new beginner, but unskilled and I haven't played in almost 6 months.

Flexible with rates and scheduling as well. Please email me if interested.

Thanks everyone.
