I have a very nice single bubble bong with an ice catch. It has a removable bowl. Has a blue hue when being used. Works great. It stands 18" tall with a wide base to prevent spillage. It comes with two extra bowls one of which is a single hitter, and a 1/2 bottle of Purple power cleaner that cleans it very well with little effort when rock salt is added. Due to my job it has not been getting any use and it is time to let it go. I hate to do it but the temptation I fear will be too great. My loss will definitely be someone else's gain. Sorry no pictures I cannot download from my phone camera. Unable to text. Calls preferred because I only check my e-mail once a day. Please no calls after
