My name is Adam and I am a professional bass player making myself available for session work. I've done many various professional live and studio recordings as well as tours through the US, Canada, South America and Europe. You can view my EPK @ <http://artistecard.com/adamsaylor> for more info, as well as a more extensive portfolio of songs I've worked/played on @ <https://www.dropbox.com/sh/vfyx64c1r6dso3d/AAAowtiQN2ze7hGDgjEy6nF0a>. I have home and mobile Pro Tools studios so no matter where I am (home or on the road) artists can send me stem mixes/mp3's of their tracks, I can track what is needed and then send my tracks back to the artists via Dropbox or copy.com without any issue using PayPal for payment. Any/all correspondence can be done via Google Hangouts or.
