My 2-year-old son needs you to come to our home to take care of him while I am also at home taking care of his newborn twin brothers. Also you would help me make sure the house doesn't get yucky (things like putting in a load of laundry, loading/emptying dishwasher, watering houseplants, keeping toys picked up, etc, but not meal prep).

The twins are not born yet, but you should start work right away. The hours would be part-time up until whichever day I need to go to the hospital for delivery. While I am in hospital, you would start taking care of my son full-time, and you would continue to work full-time until January. In January, the 2-year-old will be 3 years old, and will start full-time preschool, and I will no longer need your services.

If you don't have a car, that's okay, but you must have some kind of reliable transportation to/from our Walnut Hills home. You should not be a smoker. You should be prepared to spend lots of time walking my son to/from Eden Park, even when the weather isn't perfect. You don't have to like pets, because we don't have any dog or cat. You will not be required to do any newborn/infant care, just be there for the older boy. No diapers... he's been fully potty-trained for about 8 months.
