Hello craigslist I am a legitimate automotive technician running a mobile automotive repair company. I perform all types of repairs and use flat rates rather than by the hour so you know exactly what the dollar amount is.. no guessing. I'm based in Rochester NH. I do not charge for mileage within a 20 mile radius beyond that there is a \$30 fuel surcharge. Please feel free to contact me anytime with any job. text is preferred because I'm usually busy in under or around a vehicle. I will respond asap. Thanks for looking and I can't wait to become your at home mechanic.
