School is right around the corner!! For me, this means finding a suitable match for my 8 year old that can pick her up from school, help with homework, and also snacks for 2 possibly 3 days a week. Times would be 3:30pm - 8pm Mondays and Tuesdays for sure, and a good chance of Fridays as well. Would like someone who is good with math and listening to books being read here and there. Must have Drivers license, valid insurance and vehicle. Would need you to start around the 15th of August, maybe.
