I had been having problems with my computer for a few weeks. This was a huge problem for me since I'm a college student. I tried to fix it as well as a couple of friends of mine to no avail. I found out about Chacho's Mini through a very satisfied friend of mine. He had it fixed within the hour! I am so glad I had him fix it instead of me messing it up more. His prices were VERY reasonable and he was efficient as well as professional. I would sincerely recommend him to everyone and will use him again in the future.
