Put your skills to the test and the money-earning potential is unlimited. I'm an ivy-league educated, serial entrepreneur looking for some talented marketers. To find the best people I'm willing to make the best offer -- You get 100% of the company's profits for one month.

Choose Your Company (only 1 company will be awarded per marketer):

Heather Offord Handbags: Luxury clutches ranging in price from \$138 - \$35,000. They have been featured on the red carpet and currently sell in Nordstrom. (profits are for online sales only)

- Heather Offord Art (see Houzz): Heather is one of the best selling professional artists in America, having sold over 5,000 pieces. Prices range from \$1,000 - \$80,000. (profits are for sales that can be attributed to your efforts)

- Core-Sit: Core-Sit is an amazing product that allows you to retrofit any chair for core exercises. (all profits from sales are yours)

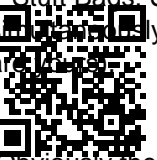

- Dear Future Me: Dear Future Me is the best way to write letters to your future self and loved ones. It is great for births, birthdays, graduations, weddings, and illness. DFM is very popular among school teachers, life coaches, and therapists. (all profits from sales are yours).

- Stuff Bags: Stuff Bags revolutionizes the trash bag industry. Instead of loading one bag, you load 5 bags at a time. When you're done, simply throw it and the bags are right there for you. Profits are yours.

Obviously there is going to be a flood of emails. Provide your resume and/or a link to your LinkedIn profile and the top 3 companies you would like to head up. I like to give everyone a chance; if your resume/profile is not up to par, let me know some creative ways you think you can drive sales.

I'm happy to answer any questions. Depending on the questions, I may request you complete an NDA.

Good luck, I look forward to working with!
