I want to know why every time I post my puppies my add is being deleted. The fee for the puppies is 75 which doesnt even come close to what ive put in these dogs. Im not a breeder I dont clame my dogs are full blooded so why then are my puppies being deleted? The only other choice I have is A give them away to be used as bait dogs or fighting or B put them in a shelter which they would be put to sleep right away. So please some one tell me why its such a crime to be trying to find these puppies homes. Craigslist u dont make any f ing since to me. As hard as it is to find pitbulls homes ur making it even more harder. There are people rehoming there pits for 150 but there post is still
