Hello Everyone,

Unfortunately the time has come where I must adopt out my 2 loving cats. I've had these cats for about 3 years. I live at home and my parents do not want them at the house anymore.

About the cats. They are super nice. They never bite or scratch you. They are always up for cuddling and will usually start to purr right when you get home. Their names are Mila (pronounced my-la) and Joy. Both females. Mila is a calico and Joy is a black and white spotted cat. They are both spayed and they both have their claws. They are very good about using their scratch posts. I also have a nail clipper that I will include which usually helps their claws not be as sharp.

I am not asking for money for the cats. I just want them to go to a nice home. I am asking \$150 for the supplies for them and to ensure they are going to the right home. If you're not willing to spend money, then I will assume you're not interested in giving these cats the best home possible/and would not spend money to bring them to the vet if they got sick. This fee includes 2 litter boxes, litter box liners, litter scoop, scratch posts, toys, nail clipper, a de-shedding brush, crates for transportation, catnip, 2 cat harnesses (they didn't enjoy going for a walk), and whatever extra food and litter that I have.

Like I said before, these cats are very well behaved and are best friends. I do not wish to separate them. If you are seriously interested, I will ask that I bring the cats to your house just so I can see where they will live/make sure you're not going to use them for dog fights or anything of that matter.

Thanks for looking. Please email me if you are interested. I also have pictures that I can send as:)
