

Bulletproof

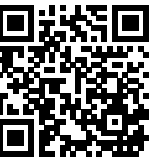

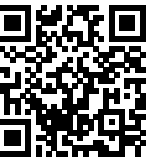

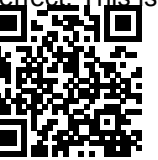

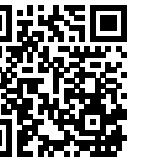

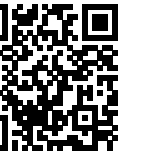

Location **Mississippi**
<https://www.genclassifieds.com/x-626221-z>

This is an awesome car. It is loaded with everything. It is a level 3 armored vehicle. It is the most luxurious armored vehicle in the USA at the lowest price. It would cost \$150k to build it today. It is a 2007/8 Cadillac DTS built by the most revered armored company in America - SCALETTA MOLONEY - out of Chicago... this vehicle is 7500 lbs. It was built for the Seminole Indian Chiefs in Florida. It is pristine, it missed nothing regarding upkeep. It has everything working perfect. It can run on 50 miles with all flat tires at 50 mph... It is gorgeous inside and out. You cannot find a better armored - luxury car in the world at this price. It comes with a clean clear title and a perfect autocheck and carfax. The engine is souped up, the ac is freezing and it is an 8 inch stretch limo, (and it looks like a normal car) with bulletproof glass everywhere. We have a lot of good records on the upkeep, and this baby has been babied from the get-go. They missed no tune-ups - it is a perfect running vehicle - all rebuilt, no expenses spared. It has brand new tires... still has nobbies on the tires (see pix). It is simply awesome... if you are in the casino business and need a car like this - just call 305 968 50 NINE NINE.

Other perks: Front and rear hidden ram bumpers, lights, sirens, pa system, reading lights, dual ac, stereo in the rear, gas tank heals itself???? and there must be an antennae for cell phone because, all calls are crystal clear... the list goes on and on... of course - leather interior. It has 102k miles on it, but was always maintained, new engine, new rebuilt transmission, they never missed anything on this car... it is perfect and awesome for the fraction of the price of a new armored vehicle.... call 305 968 50 NINE NINE

Again, this came from the Casino Indians in Florida... they missed no expenses on keeping this car

perfect. This is top of the line armored luxury
