I am currently seeking 1-3 females that are interested in the adult industry. Work will vary between photo, video, and cam. Our goal is to bring entry level models between 18-50 years of age and work a variety of different angles to market, promote, and manage YOU directly. The adult industry is a huge money business, and if you want a piece, I want to work with you. The only cost to you is time and commitment. We will arrange photo/video shoots and cam sessions, as well as build your personal website and fanbase as we progress. Pay is not specific and will vary depending on the purpose of the shoot. In some cases we will be paying out to increase the quality level of your portfolio. Once a large enough fanbase is created we can demand higher dollars in many different areas.

If this sounds like something you might be interested in, please reply with 3 photos (preferably a face shot, full body front, and full body back in lingerie/bikini or like attire) and include any industry experience that you may have (dancer, escort, etc.). Experience is not required, only a desire to be in the adult industry and willingness to invest the time to become a star.
