

Seeking Drummer (female vocalist)

I am a female vocalist seeking something a little different. Primarily, I would like to find a drummer, possibly a rhythm guitarist - perhaps even a DJ/keyboardist. I already am close with a composer/song writer who plays lead, and it would be nice to meet other musicians who we are able to connect with creatively. I write lyrics, but am willing to sing lyrics written by another person. I prefer lyrical content/topics that have at least a hint of humor to it; I do not like to take myself too seriously, but I am willing to try more serious themes/ideas in terms of lyrics.

Would be interested in doing a cover band: we already have a rhythm guitarist and lead player, just need a drummer.

I am about 20 minutes from Bangor and have my own practice space with a 5-piece TAMA w/ double-kick.

Would be interested in doing session vocals.
