

CARPET, VINYL, VCT INSTALLATION amp REPAIRS SINCE 1971 (Boise Valley Area)

Location **Idaho**
<https://www.genclassifieds.com/x-626490-z>

If you want experience and a guarantee of a quality installation I am the one. My prices are very competitive/ reasonable. I will try to meet or beat others without sacrificing quality. Please call me, Claude Potts at Nampa if honesty, dependability, and integrity are important to you; I am old-school and proud of it. I can do all types of installs, repairs, including sub-floor/ water-damage repairs, re-stretches, you name it. I have over 40 years of experience and that means a better job for you.

Have you a written quote from one of the big box stores? Please, before you commit, let me show you how much extra that you may actually be going to pay. I think you will find that their \$97 whole house specials are not so special. Price comparisons gladly given on the condition that you provide me with a copy of their written estimate and allow me time to dissect and show you how they are overcharging in areas so as to appear to be giving you a good deal on the installation labor. Compare the price of their padding with regular carpet stores and this will give you a clue.

Thank you for your interest. For more information please see my website at
<http://claudethecarpetinstaller.webs.com/>

There are a lot of mis-perceptions concerning the licensing of "contractors". Do not be deceived by those claiming to be 'licensed' flooring installers as this is not so as there is no test of competency given. Please

see this site for a better understanding of Idaho's laws on the licensing of contractors:

<http://www.idaholicense.org/> Please be aware that getting a license is not a guarantee of quality. The state has no way of knowing if a contractor is qualified to do the job. The only way to know is to ask for references and see the work. The state has no way of knowing if a contractor is qualified to do the job. The only way to know is to ask for references and see the work. The state has no way of knowing if a contractor is qualified to do the job.
