Are you having problems with your PC? Is it slow, hanging or does it have a virus?

Why waste your time and money going to the Geek Squad when you can get your machine fixed, at home for less. When your computer is in a shop, it's not the top priority, so you will get it back when they finally get round to it. With me, it IS my top priority.

I am a network engineer who before changing careers used to work for a very large college in Ireland and a large multi-national company.

HOME RATES

I now offer this service on the side. The fee? A LOW LOW 40 per hour or part thereof (excluding any parts that may be needed). 10 miles travel from Manchester FREE. After that \$2 a mile.

BUSINESS RATES

Please contact me for business.
