Brand new never used , they are selling for $1,100 on ebay I'm asking $800 OBO I'm open to trade ideas , 22" 20" 24" rims . Car audio double dins , iPhone 6, note 4, galaxy s5 , newer smart phones , ipad 4-5, I'm into electronics , let me know what you have cash is always king

Portable Unit Measures and Records Negative and Positive Pressure Differential for Construction and Renovation Projects

When performing construction, demolition or renovation work in buildings or facilities, it's important to minimize the impact on building occupants or sensitive products or equipment. Sealing off the work area and keeping it under negative (lower) air pressure compared to adjacent spaces keeps the flow of air inward and reduces the likelihood of particles escaping. The PPM3 Portable Differential Room Pressure Monitor from Abatement TechnologiesÂ®measures these pressure relationships.

Accurate, State-of-the-Art Technology

The intuitive technology of the PPM3 Portable Differential Pressure Monitor makes it easy-to-use. It has the capacity to record and store a large number of interval pressure checks, alarm history and setting changes in a history log that can be viewed on the screen or easily downloaded in CSV format to an external USB flash drive.

Other advanced features of the PPM3 Portable Differential Pressure Monitor include:

- Tilt-stand, molded rubber case for protection
- Clear polycarbonate view window in the case and hinged door to protect components and keep them clean
- Backlit, user-friendly, on-screen display
- Password protection
- Extensive history log, including time and date stamp of each event
- Easy downloading to an external flash drive
- Field upgradeable firmware
- Visual and audible alarm system with audio alarm override
- Up to 6 months of operation under battery power
- Differential pressure range: (-0.1" (-25Pa) to +0.1" (+25Pa)
