Hey Fellow Musicians

Tired of waiting weeks to get your amp or effects repairs back in a reasonable time? I can cut that usually in half. I've been in the Electronics Industry over 30 years with nearly 10 of them in the music sound business. I ran the Electronics shop at Sam Ash in Brooklyn NY during the 70's which was one of the original Stores, And I am best known as the lead Tech with "Earth Amps" from the 70's (look me up on the web)

I am semi retired and a Guitar Player, I have little overhead and my prices are very reasonable. My work is top quality and guaranteed. I'm an expert in Vintage Tube Amps. If you need someone with experience, to repair your amps or effects give me a shout. Free Estimates!!! I do not mark up parts. I also can do electronic related repairs and mods on Guitars as well as full setups . If you bring your Guitar or Bass for a setup and want to learn how to do it yourself I can arrange that as well.

You wont be sorry you chose me. I'll treat you fair and you'll leave with a smile.
