I have a very sweet 2 year old female bully. She is house and crate trained. Listens very well. I can let her outside without a leash and she doesn't run off and comes when called. She gets along with other dogs and children. We recently took over care for her for a friend but my 1 year old dog is too rambunctious with her here. She is more laid back and he still has the puppy in him. She is microchipped and is also registered as an emotional support dog. So she is allowed on airplanes and can live anywhere. Since she is registered, she is technically not considered a "pet" so you don't have to tell your landlord. Even if you do, there are no breed restrictions for her. She is not spayed and is up to date on shots and rabies. If you have any further questions feel free to ask. Thank you!
 There is a rehoming fee.
