This is our '10 Lexus RX350 AWD Crossover which we bought brand new from Lexus of Watertown in Watertown Mass on August 26, 2010. It has 56,639 miles on it. We have always garaged this vehicle, do not have pets, we are non-smokers, and we do not have young children. I don't think we've even eaten in it before and the back seat has only been sat in a small handful of times. Our Lexus has been babied and the condition shows it. It's always been dealership serviced, we just installed new top of the line tires/4 wheel alignment on 7/14/15 with the receipt to show it, and it's not due for an oil change at the Lexus dealership again until 60k miles. 50 miles ago we had both rear shocks replaced as well as new front and rear brakes done at Lexus (none of these things were keeping it from a new State Inspection but we wanted everything done right and handled before selling). It also just had a new Maine State Inspection sticker put on. We have never been in an accident, it's always been adult driven and maintained, and even the wheels are pristine with not a single mark. We wax it every 3-6 months and we never do touch car washes (touchless only). It has navigation, backup camera, heated seats, air conditioned seats, sunroof, power liftgate, and it drives the same now as it did when we bought it with a few miles on it. I can't imagine you finding a cleaner one out there. Even both key fobs are in perfect condition with the leather sheath cases on them for protection. There is not a single door ding anywhere on the car. We have always parked a fair distance from other cars in parking lots. Even our carpeted mats are in meticulous condition, and I don't think the second row was ever sat in. We also added tinted/acrylic license plate covers which we liked because it matched the tinted windows. We have every single book/manual we received with the car/from the dealership, both of the keys, all the service records, the velcro first aid kit in the trunk that's never been opened, the rear trunk privacy pull shade (as seen in the

photo), the rear trunk cargo net (as seen in the photo), and we own it so we have the title. All photos of these photos were taken on August 26, 2010 the same day we bought it. The car has a bar, leather, and leather upholstery of the interior. If you have any questions feel free to call or come-look at it. I might see you here. I will be happy to show you anything you want to know about, or perhaps show you the Lexus in person. Thank.
