1986 Volkswagen Quantum GL5. 2.2L 5cyl, automatic transmission. 103K miles. 4 brand new tires. New battery. This is the same car as an Audi 4000. This is one of the finest examples anywhere. It runs and drives perfect. It needs nothing. The interior is near mint. The body and undercarriage are rust free. I am asking \$2250 or best offer.
