Hello! I'm learning how to style hair as a hobby and need a girl with straight, shoulder-blade to mid-back length hair to practice on. No cuts, just updos, braids, curls and more! Perfect for girls who love the feeling of going to the salon to get their hair done up for that big event.

I am 25 and would prefer to work with someone around the same age, 18-28. I can come to you and happy to work with your friends as well if you want company. If you are interested in getting paid to have your hair done once a week (and eventually having access to free on-demand styling services for your events), please respond with a picture of your hair and some more info about.
