Hello, I am a professional violinist with over 35 years of performing experience. I can provide the perfect music for your special event, be it a wedding, corporate gathering or private party. Yes, there are many fine violinists here in N.E., but unlike the majority of them, even though I was New England Conservatory trained in classical violin, I am also an equally fine jazz musician. This means that if you are planning a wedding where you want the traditional classical selections for your ceremony, but prefer a lighter, swinging jazz feel for your cocktail hour, you don't have to look for two different sets of musicians. I am available as a soloist, or can provide ensembles also adept at a wide range of musical genres. I just played a wedding where the classical guitarist and I even played specially requested tunes from the Beatles and Beach Boys for her processional and recessional music. Whatever style of music, classical, jazz, rock, pop, blues or showtune, I will give you the perfect accompaniment for your special occasion. By dealing with me directly, you can save the additional costs associated with using an event planner or booking agent. Like everything in this world you get what you pay for. But, if you're looking for top quality music at reasonable rates, please contact me. I'm happy to answer all questions. Thanks for looking
