Nibbler is a great dog, and companion. He is going to need a lot of space to play, and hopefully go to work on a farm, best case scenario! He is not suited to an apartment. Currently he lives on a large plot of land where he can run all over. Nibbler loves to fetch, shake hands, and be protective, and chase the neighbors goats. He needs to take care of animals, and or a family on a big property. He is healthy with all his shots, he's de-wormed, Rabies shot. and he's licensed. also he's fixed, he's about 10 months old, and not only crate trained, but house broken. thank you! I am asking a re-homing fee to cover his expenses, I am not trying to just get rid of him, I am serious about finding him a suitable home I love him very much, and want the best for him.
