Motorcycle
 2012 Model: DR650SEL2

This exceptionally clean bike was sold to a very particular owner who has been scrupulous with its maintenance and added just the right accessories for you. He traded this bike in on a new ABS DL650 with aluminum bags, and here it is! It has a Moose Racing aluminum skid plate, It has just 1528 easy highway miles. It was serviced with 10 W40 Suzuki Oil and filter just 80 miles ago.

If you think the fun begins at the end of the road, you've come to the right place. The Suzuki DR650SE combines the civilized capabilities of a street bike with the hard charging performance and exceptional handling of a dirt bike. Its lightweight responsiveness makes it great for twisty two-laners on your way to work, or simply when riding through the forest on the weekend. The lightweight single-cylinder DR650SE

is engineered for an exceptional combination of off-road ability and smooth street performance. Off-road the DR650SE shines with its logical, low center of gravity chassis, 21" front suspension, 18" rear, and provides you with precise control of the handlebars or optional controls. For a great time, tap into the DR650SE's awesome power and you are headed out on a high speed and power-packed way across wild and scenic terrain. The DR650SE is a fun ride. It's also a couple of hundred dollars for real fun, a smooth and comfortable ride, and it has a comfortable seat and spacious riding position. The DR650SE is your invitation to adventure.

Seat height can be optionally lowered by 1.8 inches at your Suzuki Dealer.
 Shorter side stand is a necessary option to match the lower height.
