

# Sketchup literate or Cad literate

Location **Colorado**  
<https://www.genclassifieds.com/x-629285-z>

Sketchup or Cad proficient person needed to draw a Teardrop Trailer of my design on an ongoing basis. I would like both a modeling program ( maybe Sketchup or similar) and also technical drawings on CAD that can be used as shop drawings. I can draw and design most of what I need using pencil and paper but need to show these in 3D as well as enlarge them as needed to produce these trailers in a regular basis.  
 Email me or text if you can help.
