

Entrepreneurial aspirations (Alexandria)

Location **Washington** https://www.genclassifieds.com/x-629963-z

I'm a small business owner who needs some additional hands on deck to handle a myriad of tasks related to running online stores and growing merchandising operations around my (celebrity) clients brands.

Looking for a few solid people to try some initial projects with to see how well we work together.

* Need serious tech skills

- * You must be an entrepreneur who has been involved in several projects success or failures.
- * You HAVE TO BE extremely detail orientated.
- 1) Send me your portfolio/resume so I can see what you know, what you do and your skills in action.

2) What sort of compensation you're seeking.
