## GenClassifieds.com Need Someone w VA Contractors License (Northern VA)

Location Washington https://www.genclassifieds.com/x-629979-z

Hello,

I am a remodeling contractor in MD and currently expanding into the Northern, VA market. I have several large jobs (remodeling, demolition etc.) however, I have all the manpower and equipment. All that is required is someone who I can work with that has a Virginia contractors license (Class A, B, or C).

Please respond as soon as possible since I am trying to line jobs up for next week.

Also, include best phone number where you can be reached.
