

Needed Electrician

Location **Kentucky** https://www.genclassifieds.com/x-630374-z

HI,

I need an electrician to wire a hot tub. I have contacted about a dozen so far, they either don't return the call or don't show up for the estimate that they scheduled. If you are an electrician who would like to do this job and probably a few more small jobs please contact me.

Thank you,
