I have a boombah cannon baseball ball bat 31/21 25-8 barrel composite. In real good condition.I bought it for my son and he never uses it at tournaments.he has only swung it in a game three times and when I bought it we went to the batting cage with it and I threw about thirty pitches to him so it is literally not broke in at all.its a really nice bat with a couple scratches on it from just being in the dug out but nothing bad and there's no dents at all in it. If interested or have a question about it call me at
