Im a male musician looking to organize a Black female girl group of the 60's. The Shirelles, Ronettes, Marvelettes, Dixie cups. You get the idea. I will put together all of the backing tracks and do some vocals, and help with the harmony structure but mainly it will be 3 gals up front. Yes, it will take some practice, but if I can find the right combination it will be amazing. If this sounds fun and exciting to you, please write.
