2007 silverado 1500 4wd. 5.3L Only 105K! LT extended cab. Leather seats (not heated), dual climate control, runs and drives good. 1 issue with truck: airbag light on not sure what it is but hasn't bothered anything, could be just a sensor. Some light hail dings on hood and top. Body is not in perfect shape but it is still a nice looking truck. Tires have 50% + tread left. Asking 14,000 but willing to entertain reasonable offers. Texting works best for me, but feel free to call and I will get back to you as soon as I can. And no, I do not need help.
