

66 possible heterozygous piebald ball pythons (NW OKC)

Location **Oklahoma**
<https://www.genclassifieds.com/x-632019-z>

I have 2 males and 2 females one picture is with their actual piebald sister. \$50 for the males and \$100 for the females or \$125 for the pair. If you breed these together you will most likely get piebalds. They are only babies now and feeding on live hopper.
