

TOYOTA ECU. (COMPUTER) ONE FROM 89 22RE AND ONE FROM 95 3.0 VZE

Location **South Carolina**
<https://www.genclassifieds.com/x-632278-z>

\$80 for the 22RE 89-95 and NO the engine wiring is not included for \$80. It is the only pic I have but I do have the wiring harnesses for sale for \$50 for that one because one of the plugs has had another one spliced on. both ecu and harness work fine and came on my 89 4runner when i bought it but I changed my engine and my entire truck wiring from an 86 I bought for parts when I built mine so I could stick with 85-89 stuff. 89s the year they started changing things. \$65 for the 3vze 89-95. It Also came from a running 94 4runner i bought for the front clip to fix my daughters.
