I am heading up to Seattle on Aug 2016th and was looking for people to join me and help with gas (it will be divided evenly including myself).

I will do all the driving. I will be taking my van which can fit 3 passengers comfortably with bags. It gets awesome gas mileage and if we can fill the van we should only need 1 tank of gas each 25.00-30.00.

I will be heading back to SLC on Sept 1st if you are interested in a ride back as well (not required).

Please be chill and not stinky and we should get along just.
