Female glider 4 month old.eating pellets. Mealworms and we gave her vegis and fruits along with boiled ckn and eggs. Healthy and tame. Loves shoulder rides. This is a surprise baby from the two gliders I just got from my neighbor. They r moving. Cant take them. Told me the boy is neutered. I dont have extra time to bond with a new glider. Pretty happy just with the parents--who we neutered the boy already. Looking for a new home for this baby girl. Asking rehoming fee of 200. U need to get ur own cage and supply since I don't have any.
