We love to play! We're 14-15 weeks old spayed/neutered, up to date with shots, wormed and flea treated. (For you cat people, Mom was combo tested neg/neg, so we're healthy).

Cinder is a little girl kitty who has black fur with a bit of white on her chest. She just loves purring and playing and is the littlest.

Ebony looks just like Cinder but a tiny tad bigger. She walks around purring all the time and loves being held.

Knight is the all black boy. He is the first to check things out and is very spunky and adventurous.

Small donation.
