Worship Band Wanted for Saturday Mornings in k (kissimmee)

Location Florida https://www.genclassifieds.com/x-633920-z

Hello and thank you for reading, we are a small church looking for a good worship band. We are located in kissimmee. We have a need for a full band, drums, acoustic, electric, bass and piano, We have all instruments besides the bass. You would be playing on saturdays around 11:30 4-5 songs. We have a limited budget it would be a blessing to have a full band there.

Another thing we are seeking is that if the band could stay and perhaps train some of our youth, we have a good acoustic player and drummer that plays by ear, we have a few others looking to learn the other instruments.

We have service till 12:45 then lunch, so the band practice would be the same day around 3pm.

Please message me to if you are interested. We are looking to play contemporary songs, like what is played on z88
