\$750,000 to replace your house

Homeowners Insurance covers fire damage to your home RIGHT?

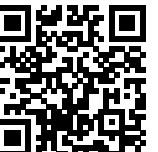

NO,,, not necessarily. Do you recall after a fire is reported on the news, the last comment is usually "fire investigators are determining the cause of the fire."

If it is found that the fire is caused by wiring provided, and not complying with the newest electrical code, and or done by, not licensed persons, handyman, carpenter, homeowner,homeowner's brother,homeowner's sister,homeowner's mother in law ?.

The insurance industry is not required to pay for anything. That includes property damage, liability, personal loss.

NOT REQUIRED ??
so do you think they will pay \$750,000 to replace your house. RIGHT?

The state of Hawaii requires that all work be accomplished by a licensed electrician.
