The S-class has always been synonymous with luxury, indulgence, and wealth, and it does not disappoint. This sedan has a 523-hp 6.0-liter twin-turbo with a seven-speed automatic and either rear- or all-wheel drive. The perfectly stunning coupe features the V-8 and feels surprisingly nimble for its size. The S-class is the car you buy when you have made it big. For eco-minded go-getters, it has hybrid options.

I have an excellent Mercedes S600 for sale. Brand new sticker price was \$154,360. It has all the upgrades from the moon roof, self parking, DVD in head rests and has upgraded leather through out. Must SEE in person!!  
Asking \$81,000 OBO. Please call or text with questions.

This luxury vehicle is basically brand new, rarely driven and kept in heated and AC garage. It only has 40k. The tires show zero wear. Will take cash or cashiers check call or text Stephen Richter @ eightfivenine-409
