

# 1999 Toyota Camry LE (2900 USD)

Location **Maine**  
<https://www.genclassifieds.com/x-635410-z>

Just finished dropping a motor in this one. The original engine blew a head gasket , so I purchased one off eBay with less than 45K miles and had it installed . The car is in running condition but still needs small stuff to pass inspection . The list of stuff left to do is ..... Front end alignment , Rear brake lines , Rear brake shoes (parts included) , the window regulators need to be replaced or else the window rolls up really slow . Could use some body work on the rear trunk (under the spoiler) . Seems as though there is a slight leak in the windshield or sunroof that needs to be isolated . After relocating to the apartment here in Camden I don't have a place to work on the vehicle any longer. This would make a great winter car for transportation purposes. Heater blower works on High and all the vent positions adjust correctly . Power steering pump is good , alternator is good , new battery , the car chassis has 242K the engine has under 45K and the oil is really clean after driving it around for the last months (the color of honey) . This will make a good car for someone who can finish the work as listed above . Gas millage averaged 24 mpg. Automatic transmission (no leaks) I will obtain a transport certificate to drive the car legally for the new owner . Car also has a remote starter installed that is in working order Phone # is 207- two four nine 2four
