...Singer-Songwriters.

Interested in performing or recording covers or original material but can't find the right musicians? Have you ever considered pre-recorded backing-tracks?

I'm a professional musician and have been performing for over 35 years. I create my own backing-tracks and have used them in my solo act and in band situations for many years. That experience gives me an advantage over other sources. Performing to backing-tracks on a regular basis, I'm cognoscente of count-ins and other subtleties that allow a performer to stay in sync with the music, creating a natural flow throughout each song.

For a minimal initial investment you can have the songs you want and the sound you want. No more hassles with cancelled band rehearsals, scheduling conflicts and more importantly, no more splitting the money with other musicians!

Have some original songs you want to record but can't afford to hire multiple musicians and pay studio fees? I can create the music for you, exactly the way you want it and for a fraction of the cost. If you have the ability to record your voice or instrument, I can even produce a commercial CD complete with mixing and mastering.

Backing-tracks are a great vehicle for standalone vocalists or instrumentalists that want to perform solo and have a backing musician or them. I create tracks in any style or genre well versed in any style. I guarantee you will be satisfied after you hear the tracks. I make no money in the process. I send you the updated song (s) until you are completely satisfied! At no additional cost to you.

So, don't put it off because you can't find a band. Get out there and start promoting your talent, having fun and making MONEY now!

You can visit my Sound Cloud page to hear a few samples <https://soundcloud.com/ptmproductions>
