Hi,

I'm looking for someone to set up a SD card with retroPie for me using the raspberry pie 2.

I'm NOT looking for any ROMS. Just retroPie configed and setup as I need.

I'm using a Xin Mo arcade to USB encoder, 2 PS3 controllers and a wireless keyboard.

Happy to pay for your work with PayPal. You would need to have the PS controllers and of course a RP2.

If you are interested please send me a msg.

Thank you! =)
