Why not have an exceptional massage session. And just because this is a professional massage, does not mean it is a cold clinical session, not at all. My sessions are personally designed just for you (not a cookie cutter session) and they are done in a private, warm, clean, and quiet environment on a large comfortable massage table with laundered linens, low lighting and very soothing music. My session is a combination of Swedish & Deep Tissue with some Foot/Hand Reflexology also. It is both strong & relaxing at the same time and of course can be adjusted to each individual. I work out of my private home studio with a shower for your use. IN CALLS ONLY, sorry no outcalls. I am professional, experienced, trained, licensed (3/16/2006) & personable. If you are interested in a massage and want more information just give me a call. M-F 9a.m. to 6p.m. end time. Same day appointments available if booked before noon.
