Location **Alaska**

She is spayed and has NOT been declawed.

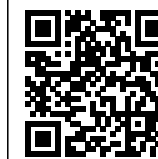

She would be great, preferably with an older single person. I do not know how she does around children.

She has been kept up to date on her shots although she is due for her rabies-feline-3year and her rhino/calico inj-vaccine-3yr on 8/22/15.

Free to good home. She will come with a Travel kennel,Litter box, and a Bag of food.

She can be a skittish sometimes, but also very sweet.

She is not getting along with our dog.
