---

5.4L engine runs great and it handles like a car so it's lots of fun to drive. Plus, it's a really nice looking vehicle. I get compliments all of the time. It has never been in an accident. The only physical issue is a dent in the tailgate. One of my family members opened the tailgate and let it fall on the trailer jack that it was towing. The photos show the dent(it's about 2-3" in diameter). All service has been performed by Gaudin Ford here in Las Vegas. I am very particular about servicing my vehicles. This vehicle still has a maintenance contract and Bumper to Bumper Warranty with Ford so there will be no surprises or hidden problems that you will have to pay for. It has many options that make it a pleasure to drive everyday. The 11,000lb tow package will let you tow a big trailer for travel or work. The inside of the cab is very roomy with easily enough room for 6 with out any crowding. It also does not have the "hump" in the middle that the middle passenger has to straddle. Also, loading stuff into the rear seat area is very useful without having things tip over from the "hump". It will have new brakes installed in the front before I sell it to anyone(they are starting to get low). This will be the first set of brakes to be replaced, so getting this mileage out of the brakes is amazing.

I have reduced the price to \$21,500 for the truck, and I must sell as soon as possible. I will consider all serious offers. I am working 6 days a week right now, so I can only show the vehicle in the evenings or on Sunday. I apologize for any inconvenience this causes any one that is interested. Please text, call, or email to schedule a time to view the vehicle. Obviously, I will not entertain anyone who does not have serious interest in purchasing the vehicle. If you plan on acquiring financing for this vehicle, I will cooperate with any reasonable request of your financier who may want to inspect or need other information about it. If you are reading this ad, the vehicle is still for sale. The ad will be removed if the vehicle has been.
